

International Symposium on Perinatal and Early Life Immunity

9th to 12th April 2025

Freiburg, Germany

Speakers

Galit Alter (USA)

Petra Arck (Germany)

Guy Boeckxstaens (Belgium)

Thomas Boehm (Germany)

Debby Bogaert (UK)

Petter Brodin (Sweden)

Eran Elinav (Israel)

Deena Gibbons (UK)

Florent Ginhoux (France)

Nardhy Gomez-Lopez (USA)

Elisa Gomez Perdiguero (France)

Melanie Greter (Switzerland)

Christoph Härtel (Germany)

David Hackam (USA)

Lindsay Hall (UK)

Muzlifah Haniffa (UK)

Steffen Jung (Israel)

Paul Kubes (Canada)

Taco Kuijpers (Netherlands)

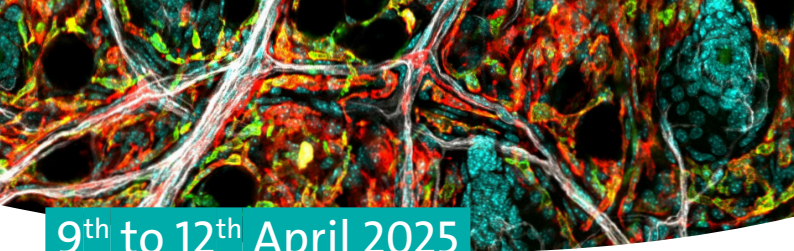

Kathy McCoy (Canada)

Gabriel Nuñez (USA)

Chiara Romagnani (Germany)

Christoph Thaiss (USA)

Claudia Waskow (Germany)

9th to 12th April 2025

Freiburg, Germany

SAVE THE DATE

Dear friends and colleagues,

We warmly invite you to our International Symposium on **Perinatal and Early Life Immunity** in April 2025 in Freiburg.

This event will bring together scientists from multiple disciplines to explore recent discoveries in early immune development, focusing on how the immune system prepares for and adapts to the birth transition. We are especially interested in promoting discussions on translational aspects to highlight how understanding the basic mechanisms of early immune development could lead to clinical innovations.

We expect this Symposium to be truly memorable: expert lectures, highlight talks and an interactive poster night will combine to foster dynamic interdisciplinary conversations, and we hope you will discover personal connections to develop new scientific networks.

The event will take place in the *Historisches Kaufhaus*, a Renaissance town palace in Freiburg's historic old city. We look forward to welcoming you here in April 2025!
